

EcoPac® Refill System

Vertex EcoPac® Refill Systems provide handy lift-and-load simplicity, and do not require any tools or special instructions to move from an empty insert to a fresh set of 96 tips. EcoPac Refill Systems are also environmentally friendly, reducing lab waste by 70%, while also conserving precious shelf space.

Paper or Plastic? The choice is yours.

Vertex EcoPacs are available in paper and plastic packaging, to suit your application as well as your preferred recycling method.

EcoPac Benchtop

The EcoPac Benchtop Refill System is housed in paperboard packaging that may be preferred by some institutional recycling programs. Inside, you will find tip refills of the highest Vertex quality and low-retention technology.

Tips are made with proprietary NoStick® resin to facilitate exceptionally clean release.

Clean and durable plastic (PET) packaging.

100% Recyclable
100% Clean
